SUMMARY

AI Software Engineer with 1 year of experience building production-grade AI agents, RAG pipelines, and multimodal systems. Strong Python/FastAPI backend experience with TypeScript/React exposure, AWS deployments, and CI/CD workflows. Experienced with LangChain, LangGraph, OpenAI/Gemini APIs, vector databases, Supabase, PostgreSQL, Redis, and event-driven automation workflows.

EXPERIENCE

Kairos Computer - Agent Automation Platform | AI Engineering Intern

July 2025 - April 2026

- Built backend and frontend features for an AI agent automation platform using Python, FastAPI, TypeScript, React, and a monorepo architecture.
- Developed agent workflow modules for task execution, browser automation, tool orchestration, and live task status updates across web and backend services.
- Deployed AWS Lambda and ECS/ECR-based services, integrated SQS queues, and supported GitHub Actions CI/CD workflows for dev/prod releases.

Stealth Startup - Educational AI Platform | AI Research Intern

March 2025 - June 2025

- Contributed to an AI-powered education platform focused on personalized learning experiences for undergraduate students.
- Designed multimodal RAG workflows combining LLMs, retrieval, memory, intelligent search, and tool-use patterns.
- Developed Model Context Protocol (MCP) integrations to connect external tools and structured context sources with LLM workflows.

PROJECTS

Alpha Brain - Agentic AI Second Brain | Live: alpha-brain-five.vercel.app

- Built an autonomous AI agent using Claude and Inngest that captures ideas through Telegram, parses actions and due dates, and persists structured entries to Supabase in under 3 seconds.
- Engineered event-driven cron jobs with Inngest for deadline notifications, daily digests, and AI-generated article drafts with retry logic and quiet-hours support.

InTrust - AI Insurance Recommendation Engine | Live: in-trust-web.vercel.app

- Built an LLM-based recommendation engine that scrapes and normalizes IRDAI-mandated CIS documents from 9+ insurers, enabling comparison across 300+ health and life policies.
- Built a retrieval-augmented extraction pipeline with per-policy Pinecone namespaces, Qwen3 embeddings, and grounded LLM extraction to structure 300+ policies into a 30-field schema at approximately \$0.08 per policy.

Multimodal YouTube RAG Chrome Extension | GitHub: github.com/YogeshChebrolu/YT_RAG

- Built a custom multimodal RAG system for YouTube videos by combining transcript analysis with frame-synchronized visual retrieval for context-rich answers.
- Implemented grounded responses with explanations, relevant diagrams/proofs, and reusable notes across videos.

English-to-Italian Translator Using Transformers in PyTorch | GitHub: github.com/YogeshChebrolu/Transformers-Implementation-in-PyTorch

- Implemented a Transformer model from scratch in PyTorch with custom multi-head attention, positional encoding, optimized feed-forward layers, and an end-to-end training pipeline.

TOOLS & TECHNOLOGIES

Languages: Python, TypeScript, JavaScript, SQL, HTML/CSS

Backend & Data: FastAPI, REST APIs, Pydantic, PostgreSQL, MySQL, Redis, Supabase, MongoDB

AI / ML: LangChain, LangGraph, OpenAI API, Gemini API, CrewAI, RAG, AI Agents, NLP, Deep Learning, Prompt Engineering, PyTorch

Retrieval / Cloud / DevOps: Pinecone, Qdrant, embeddings, semantic search, AWS Lambda, EC2, ECS, ECR, SQS, GitHub Actions, CI/CD, Git, Docker

Frontend & Developer Tools: React, Next.js, Streamlit, Cursor

EDUCATION

RGUKT - RK Valley | B.Tech, Computer Science and Engineering | CGPA: 8.7

June 2022 - 2026

RGUKT - RK Valley | Pre-University Course, MPC | CGPA: 9.8

January 2020 - 2022

Sri Chaitanya E.M School | SSC | GPA: 10.0

March 2019 - 2020

AWARDS & PARTICIPATION

- Qualified GATE 2025 - Data Science and Artificial Intelligence (DA).
- Presented an AI-powered postal automation idea at Smart India Hackathon 2024.

CERTIFICATIONS

- Introduction to Deep Learning, IIT Ropar (NPTEL) - Top 5%.
- ChatGPT Prompt Engineering for Developers - DeepLearning.AI.
- Building Systems with ChatGPT API - DeepLearning.AI.
- Data Science: Machine Learning - edX; Intro to Machine Learning - Hitloop Learning Platform.
